Grant Guidelines

ABOUT WYTHE-BLAND FOUNDATION GRANTS

The Wythe-Bland Foundation, a non-stock 501(c)(3) health legacy foundation, was created from the lease of Wythe County Community Hospital in 2005. It is managed by a Board of 13 members who are community leaders residing in Wythe and Bland counties. Board members serve without compensation. The foundation owns all of the real estate associated with the hospital and is responsible for ensuring tenant compliance with the terms of the lease agreement. This pre-paid lease created the charitable wealth that generates earnings from investments to provide grant resources to Wythe and Bland County eligible not-for-profit organizations. As a condition of the lease approval, by the Virginia Attorney General, awards are made for health, education, and welfare projects that provide essential services to the citizens in the two-county area with an emphasis on health. The Spending Policies and Community Investment Strategies of the foundation have been created to preserve the asset base as an enduring endowment; therefore, the investment for grants and management of the foundation are limited to approximately 5% of the value of the asset base annually.

Qualified organizations may apply for grants for new programs, current programs or establishing or investigating new programs. No grants will be awarded if the Foundation Grant Application and other requested information described in these guidelines are not provided. Verbal or written letters of request or other inquiries cannot be considered as, or substituted for a formal grant application. Applications must be complete by August 1st with all forms accurate.

FUNDING LEVEL

At the present time the foundation has not set limits on the size of grants. The foundation does, however, reserve the right to set upper or lower limits on the size of grants in order to promote efficiency in grant administration, provide for financial stability, and to ensure that there are adequate funds to support both current and long-term projects deemed a priority by the Board. Generally, funding levels for grant distribution during a fiscal year is expected to be approximately five percent (5%), including the cost of operations, of the total value of the foundation's endowment.

Grants will normally be awarded on an annual basis, October 1 to September 30; however, the Board may consider multiyear grants. Grant applications seeking matching funds must provide written documentation from the other contributor(s) or the Board may make the foundation's grant contingent on receipt of such matching contribution(s). The documentation may include a letter or resolution from the other contributor(s). The Board reserves the right to request additional documentation of expenditures, including, but not limited to cancelled checks or expenditure certifications and to require project status reports and periodic update.

GRANT FUNDING CYCLE

Grant Applications are reviewed one (1) time per year to consider recommendations for funding. All grant applications must be submitted via e-mail or postmarked on or before the Grant Application due date. The grant application and all requested information must be complete prior to the Application due date to be considered in the Grant Review Cycle. Applications which are not timely submitted will not be considered in the current Grant Cycle unless a new application is submitted by the Grant Application Due Date for such subsequent Grant Review Cycle.

Grant Application Due Date	Grant Review Cycle	Grant Award Dates
August 1	August/September	October

The grant review process includes a thorough review of the merits of each application. Therefore, applications submitted after the close of business on August 1st will not be eligible for consideration.

GRANT REVIEW PROCESS

When grant applications are received, the information will be reviewed by the foundation staff to determine compliance with the Grant Application Guidelines.

If the application is deemed to be incomplete, the foundation staff may request additional information. If the information is received in the time specified by the foundation staff, the application will be considered in the current grant review cycle. If the information is not received, or the application is still considered incomplete, the application will not be considered in any subsequent cycle. A new application will need to be submitted for the the next grant cycle.

The board of the foundation will review the applications and reserve the right to ask for additional information or to make a site visit during the review process. Upon completion of the application review, the Board of Directors will make the final decision for funding regarding each grant.

Applicants are required to use the most current guidelines in preparing the grant application.

The Foundation will evaluate grant applications based, in part, on the following:

- Is the proposed project consistent with the foundation's mission?
- Has your organization received previous funding from the foundation and successfully met the requirements contained in the grant agreement?
- Has the applicant submitted all of the information required by the foundation, and does the application only reflect one project? (Organizations may not combine multiple projects in one application.)
- Has the applicant clearly stated the need to be addressed and the impact that the project will make on meeting that need?
- Does the project application clearly define the Outcome and Objectives using the SMART (**Specific, Measurable, Attainable, Realistic, Timely**) approach?
- Has the proposing organization clearly documented its capacity and experience to develop and implement the proposed project?
- Is the proposed project consistent with the applicant's historical mission?
- Has the organization and project leadership demonstrated the skills and experience required for success?
- Is the project timetable realistic?
- Does the budget clearly reflect the resources necessary for the proposed project, the operation, and maintenance cost of the organization?
- Does the organization have a Sustainability Plan and/or a Business Plan?
- Has the applicant developed a broad base of support for the project including partnering with other agencies or funders?

After the grant application review process is completed, applicants will be notified in writing by the foundation staff regarding the final outcome of their request. If the grant is approved, the foundation staff will issue a letter advising the applicant of the award and of any conditions, restrictions, payment terms, and reporting requirements (which may include on-site visits) connected with the grant award. The applicant will be required to execute a Grant Agreement and agree to hold harmless and indemnify the foundation from any claim, loss, expense related to the applicant's activities or use of the grant. The Grantee has thirty (30 days) from the dated grant offer to return the fully executed and witnessed Grant Agreement, or the offer of award will be rescinded. The grant award fiscal year is October 1 to September 30 regardless of the date that the Grant Agreement is executed.

The number and amount of requests, community needs, board priorities, federal and state laws and regulations, and available funds may require the foundation to not fully fund a request.

PROJECT ACCOUNTABILITY AND CONTINUITY

The foundation's award letter specifies the terms of the grant, including the use of grant funds, reporting schedule, and the need to adhere to Foundation grantmaking policies.

Each organization receiving funds from the foundation may be required to provide periodic financial reports and project reports. Additionally, photographs may be requested for inclusion on the foundation's newsletters, press releases, and/or websites.

Failure to expend grant funds and to provide a complete, accurate, and timely accounting of award within one year, or term agreed to at application approval, may prohibit the organization from receiving future funding from the foundation. It may also result in the Foundation seeking restitution of any misspent funds.

Grant recipients must inform the foundation immediately if significant events occur that may impact the project. Examples may include, but are not limited to, a change in the project director, or in the organization's key personnel; the organization's priorities, board members, funding sources, project costs, or operations. Failure to notify the foundation of issues that could adversely impact the project may result in a temporary, permanent cessation of payments, or possible action to reclaim funds.

REPORTING AND DISBURSEMENTS

Grant Award Disbursements

Disbursements for grant awards are usually made in three payments. Any deviation from this schedule must be approved in advance by the foundation. Unless otherwise approved, or change required by the grantor, the schedule of disbursements will be as follows:

Payment 1: One-third of the award is given to the grantee when the original Grant Agreement award letter is signed and returned by the grantee.

Payment 2: The second one-third disbursement is made upon receipt and approval of the mid-term report.

Payment 3: The final one-third disbursement is given when the final report is received which includes documentation of the checks written for the grant.

The final payment will reflect any change to the project budget with any unapproved funds reducing the total award to the Grantee.

Report Forms:

The **WBF Project Progress Report** is used to inform the Board of the community impact of funded projects.
