ABOUT THE WYTHE-BLAND FOUNDATION

The Wythe-Bland Foundation, a non-stock 501(c)(3) health legacy foundation, was created from the lease of Wythe County Community Hospital in 2005. It is managed by a Board of thirteen (13) members who are community leaders residing in Wythe and Bland counties. Board members serve without compensation. The Foundation owns all of the real estate associated with Wythe County Community Hospital and is responsible for ensuring tenant compliance with the terms of the lease agreement. This pre-paid lease created the charitable wealth that generates earnings from investments to provide grant resources to Wythe and Bland County eligible not-for-profit organizations. As a condition of the lease approval, by the Virginia Attorney General, awards are made for health, education, and well-being projects that provide essential services to the citizens in the two-county area with an emphasis on health. The Spending Policies and Community Investment Strategies of the Foundation have been created to preserve the asset base as an enduring endowment; therefore, the investment for grants and management of the Foundation are limited to approximately 5% of the value of the asset base annually.

Qualified organizations may apply for grants for new programs, current programs or establishing or investigating new projects. No grants will be awarded if the Foundation Grant Application and other requested information described in these guidelines are not provided. Verbal or written letters of request or other inquiries cannot be considered as, or submitted for a formal Grant Application. Applications must be complete and delivered to the Foundation office digitally or in-person by 5:00 p.m. on August 1st to be accepted for funding consideration. Any application received after that time will not be considered.

FUNDING LEVEL

At the present time, the Foundation has not set limits on the size of grants. The Foundation does, however, reserve the right to set upper or lower limits on the size of grants in order to promote efficiency in grant administration, provide for financial stability, and to ensure that there are adequate funds to support both current and long-term projects deemed a priority by the Board. Generally, funding levels for grant distribution and cost of operations during a fiscal year is expected to be approximately five percent (5%), of the total value of the Foundation's endowment.

Grants will be awarded on a twelve (12) month basis, October 1 to September 30; however, the Board may consider multi-year grants. Grant Applications seeking matching funds must provide written documentation from the other contributor(s) or the Board may make the Foundation's grant contingent on receipt of such matching contribution(s). The documentation may include a letter or resolution from the other contributor(s). The Board reserves the right to request additional documentation of expenditures, including, but not limited to cancelled checks or expenditure certifications, and to require project status reports and periodic updates.

GRANT FUNDING CYCLE

Grant Applications are reviewed one (1) time per year to consider recommendations for funding. All Grant Applications must be submitted via e-mail or hand delivery and received prior to 5:00 p.m. on August 1st. The Grant Application and all requested information must be completed by the due date to be considered in the Grant Review Cycle. Applications which are not timely submitted will not be considered for the current Grant Cycle.

Grant Application Due Date	Grant Review Cycle	Grant Award Dates
August 1st	August/September	October

GRANT REVIEW PROCESS

When Grant Applications are received, the information will be reviewed by the Foundation staff to determine compliance with the Grant Application Guidelines.

If the application is deemed to be incomplete, the Foundation staff may request additional information. If the information is received in the time specified by the Foundation staff, the application will be considered in the current Grant Review Cycle. If the information is not received, or the application is still considered incomplete, the application will not be considered in any subsequent cycle. To be considered, a new application will need to be submitted for the next grant cycle.

The Board of the Foundation will review the applications and reserve the right to ask for additional information, or to make a site visit during the review process. Upon completion of the Application review, the Board of Directors will make the final decision for funding regarding each grant.

Applicants are required to use the most current guidelines in preparing the Grant Application. The Foundation will evaluate Grant Applications based, in part, on the following:

- Is the proposed project consistent with the Foundation's mission?
- Has the organization received previous funding from the Foundation and successfully met the requirements contained in the Grant Agreement?
- Has the applicant submitted all of the information required by the Foundation, and does the application only reflect one project? (*Organizations may not combine multiple projects in one application.*)
- Has the applicant clearly stated the need to be addressed, the need for the grant, and the community impact that the project will have?
- Does the project application clearly define the Outcome and Objectives using the SMART (**Specific, Measurable, Attainable, Realistic, Timely**) approach?
- Has the proposing organization clearly documented its capacity and experience to develop and implement the proposed project?

- Is the proposed project consistent with the applicant’s historical mission?
- Has the organization and project leadership demonstrated the skills and experience required to successfully complete the proposed project?
- Is the project timetable realistic?
- Does the budget clearly reflect the resources necessary for the proposed project, including the operation and maintenance cost of the organization?
- Does the organization have a Sustainability Plan and/or a Business Plan?
- Has the applicant developed a broad base of support for the project including volunteers and/or partnering with other agencies and funders?
- Have applicants with past Foundation funded projects fully complied with the requirements found in the Grant Agreement?

After the Grant Application review process is completed, applicants will be notified in writing by the Foundation staff regarding the final outcome of their request. If the grant is approved, the Foundation staff will issue a letter advising the applicant of the award and of any conditions, restrictions, payment terms, and reporting requirements (which may include on-site visits) connected with the grant award. The applicant will be required to execute a Grant Agreement and agree to hold harmless and indemnify the Foundation from any claim, loss, expense related to the applicant’s activities or use of the grant award. The Grantee has thirty (30) days from the dated grant offer to return the executed Grant Agreement, or the offer of award may be rescinded.

The grant award fiscal year is October 1st to September 30th, regardless of the date that the Grant Agreement is executed.

The number and amount of requests, community impact, Board priorities, federal and state laws and regulations, and available funds may require the Foundation to not fully fund a request.

PROJECT ACCOUNTABILITY AND CONTINUITY

The Foundation’s award letter specifies the terms of the grant, including the use of grant funds, reporting schedule, and the need to adhere to Foundation grantmaking policies.

Each organization receiving the funds from the Foundation may be required to provide periodic financial reports and project reports. Additionally, digital photographs of the funded project are required for inclusion on the Foundation’s newsletters, press releases, websites, and/or social media accounts. The grant recipient will insure that any individual(s) depicted in submitted photographs have given permission for use of their photo.

Failure to expend grant funds and to provide a complete, accurate, and timely accounting of award expenditures within one year, or term agreed to at the application approval, may prohibit the organization from receiving future funding from the Foundation. It may also result in the Foundation seeking restitution of any misspent funds.

Grants recipients must inform the Foundation immediately if significant events occur that may impact the project. Examples may include, but are not limited to, a change in the project director, change in project budget, or change of operation that impacts the goals and objectives. Failure to notify the Foundation of issues that could adversely impact the project may result in a temporary or permanent cessation of payments, or possible action to reclaim funds.

The narrative report should include, but not be limited to: a description of the project and how staff and volunteers were involved in carrying out the project activities. Any changes in the project's implementation and described in the original application should be documented, such as would you have measured different objectives than originally planned, offering insight for the reason and how the project was impacted. Describe how the end result compares with the original project plan and if your goals were achieved. If you have done a similar project before, what have you learned?
